He/Him • Seattle, WA • [linkedin.com/in/alex-lindsay-8097a755](https://www.linkedin.com/in/alex-lindsay-8097a755) • github.com/lorondo

A game producer transitioning to web development, eager to gain real-world engineering experience and expand expertise in front-end and back-end technologies. Passionate about building intuitive, user-friendly applications and contributing to collaborative development teams while growing into a full-time software engineering role.

WORK EXPERIENCE

WizKids (Radical Sharing LLC) • Sep 2021 – Feb 2024

Tabletop Game Producer

- Spearheaded the development and digital marketing of several tabletop gaming products from concept to market.
- Collaborated on the launch of the WarLock Tiles Parts online store, improving user experience.
- Wrote effective marketing copy for product listings on the WizKids retailer network.
- Established a digital knowledge base for tabletop miniatures and terrain to facilitate access for teams.
- Proofread and edited digital content for partner teams, ensuring clarity and accuracy.

IBM SoftLayer • Oct 2014 – Aug 2020

Server Build Technician

- Collaborated with technicians to build server configurations tailored to client needs for online services.
- Developed custom software solutions to enhance customer service in web-hosted environments.
- Provided on-call troubleshooting for critical systems, ensuring web availability and performance.
- Participated in training focused on web infrastructure support.
- Promoted cross-team communication to improve operational efficiency and project execution.

Wizards of the Coast • Jul 2013 – Jul 2014

Customer Support Representative

- Provided support for tabletop gaming products through phone and email, enhancing user engagement with digital tools.
- Communicated effectively with retailers and customers for a seamless online experience.
- Served as a subject matter expert on platforms like Dungeons & Dragons Insider and Magic Online, advising on web functionalities.
